# TOWN OF WICKENBURG

155 N. Tegner, Ste. A - Wickenburg, Arizona 85390  
(928) 684-5451 FAX (602) 506-1580

January 19, 2024

Honorable Mayor, Members of the Town Council, and Citizens of the Town of Wickenburg:

I am pleased to submit the Annual Comprehensive Financial Report (ACFR) of the Town of Wickenburg (Town) for fiscal year ended June 30, 2023. State law requires that every local government publish within six months of the close of each fiscal year all audited financial statements. Financial statements are to be presented in conformity with the United States Generally Accepted Accounting Principles (GAAP), audited in accordance with *Generally Accepted Auditing Standards* (GAAS), by a licensed certified public accountant(s). Pursuant to that requirement, we believe to the best of our knowledge that the data presented herein is accurate in all material respects and is designed to enable the reader to gain the maximum understanding of the Town's financial affairs.

Responsibility for the accuracy and completeness of the presented data, including all disclosures, rests with management. To the best of our knowledge and belief, this report is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town's financial activities have been included. To provide a reasonable basis for making these representations, management has established a comprehensive framework of internal controls intended to protect the Town's assets from loss, theft, or misuse. Because the cost of internal controls should not outweigh their benefits, the Town's comprehensive internal control framework has been designed to provide a reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

CWDL, Certified Public Accountants, an independent certified public accounting firm, performed the Town's annual financial statement audit and has issued an unqualified opinion on the Town of Wickenburg's financial statements for the year ended June 30, 2023. Their independent auditor's report is located at the front of the financial section of this report. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The MD&A, which immediately follows the Independent Auditors Report, is intended to complement this transmittal letter and should be read in conjunction with it.

## ***Profile of the Government***

Henry Wickenburg along with other settlers founded Wickenburg in 1863. The infant town went through many trials and tribulations during its first few decades surviving Indian wars, mine closures, desperadoes, drought, and a disastrous flood in 1890 when the Walnut Creek Dam (1) burst, but through it all the town continued to grow. On June 19, 1909, the Town of Wickenburg was incorporated.

Located in the Southwest section of the State, in Northwest Maricopa County, the town sits at an elevation of 2,049 feet. With approximately 26.5 square miles of land today compared to only 13 square miles back in 2003, the Town continues to expand as annexation plans continue. The Town is empowered to levy a property tax on real property located within its boundaries and continues to keep that levy substantially below the maximum allowed. The 2019 census population estimate is 8,092 which is almost a 24% increase from the 2010 estimate 6,529.

The Town of Wickenburg operates under the Council-Manager form of government, with policymaking and legislative authority vested in the Town Council. The elected officers of the Town consist of a Mayor and six (6) Councilmembers. The qualified electors of the Town commencing in 1996 have directly elected the Mayor. The term of office of the Mayor and Councilmembers is four (4) years, with Councilmembers serving overlapping terms in the manner provided by State law. Within twenty (20) days after an election where one or more Councilmembers is elected, the Vice Mayor shall be selected by a majority of the Council, from among its own members, for a term to run concurrent with that of the Mayor's term. If the Vice Mayor's term expires sooner, he/she shall serve until his/her successor is appointed and qualified. In the absence or disability of both the Mayor and Vice Mayor, the Council may designate another of its members to serve as acting Mayor who shall have all the powers, duties and responsibilities of the Mayor during such absence or disability.

The Town Council is responsible for the hiring of the Town Manager, who is responsible for overseeing all local government-related activities and implementation of the policies of the Town Council. With the exception of the Town Attorney and Magistrate, the Town Manager appoints all Department Heads subject to ratification by the Town Council. Together the Council, Management and Staff provide a full range of services including water, electric, sanitation and wastewater; police and fire protection; a public library, community center, pool, and several parks; inspections, licenses and permits; construction and maintenance of streets and related infrastructure; programming of various recreational activities; and enforcement of both the Town and Local Tax Code.

### ***Local Economy***

The last sales tax change was on April 1, 2016, at which time the construction tax rate increased from 2.2% to 3.5%. The "General" Sales Tax rate remains at 2.2% since June 1, 2009, with Rental and Leasing of Real Property dropping from 2.2% to 1.7% on October 1, 2009. The Town increased the Transient Lodging "Bed Tax" rate from 2% to 3% on August 1, 2015. The tiered rate for single item purchases of \$5,000 or more remains at 1.69% since September 1, 2012.

The economy in Wickenburg continues to do very well with an overall increase of about 17.5% in local sales tax over the prior year. Compared to the prior fiscal year though Transient Lodging has decreased slightly by about 4% all other major categories including construction, retail trade, restaurants & bars have increased. The category which accounts for approximately 41% of our local tax and increased 13.5% over the prior year is the Retail category. In addition to growth in the community (more roof tops), this is primarily attributed to the changes made by the Arizona Department of Revenue to online shopping.

Though we saw an up-kick in building permits during the prior year with 847 issued in that prior year, construction was still going strong with 538 permits issued in fiscal year ending June 30, 2023.

### ***Long-Term Financial Planning & Major Initiatives***

Wickenburg, like other governmental jurisdictions in Arizona, is subject to an annual expenditure limit, which is adjusted each year by population and inflationary growth factors from the base year of 1979-80. That expenditure base can be adjusted by voters to enable the Town to spend increased revenues received by various sources during the year. In March 2006, voters approved a \$4,794,034 permanent increase to the base, which became effective in fiscal year 2006-07. The increase in the base is expected to continue accommodating the Town's budgeted expenditures for at least another five years, but most likely longer. Permanent adjustments to expenditure limits do not increase taxes.

To maintain strong long-term financial plans, annually the Town Council has a Retreat with the Town Manager to create a Strategic Plan for the future of the Town. For the upcoming year the Council's Strategic Plan continues to focus on five areas: Economic Development, the Downtown Area, Public Safety, Youth & Families, and Natural Resources & Recreation. Together it is our hope that these initiatives will encourage forward thinking in how the Town plans and funds the upkeep and growth of the community.

Next Department Heads are required to submit their budgets for the following fiscal year through "zero-based" budgeting for the majority of their line items, which requires them to extensively analyze and plan projected expenditures for the year in more depth. To tie the Council's Strategic Plan with the budget, staff also must submit a Five-Year Capital Improvement Plan.

While an economic downturn is inevitable at some point, we do not assume one in our latest forecast and project that our healthy fund balances will overcome moderate recessionary trends. Thanks to the Town's long-term financial planning, Capital Improvements were strong in the prior year with projects totaling \$14,500,124 and \$12,806,893 planned for the new fiscal year.

### ***Relevant Financial Policies***

The Town of Wickenburg takes pride in having a comprehensive set of financial policies to assure financial stability and transparency of the Town's finances, by setting guidelines for fund balance, which is an important measure of the economic stability of the Town. It is essential that the Town of Wickenburg maintain adequate levels of unassigned fund balance to mitigate financial risk that can occur from unforeseen revenue fluctuations, unanticipated expenditures, and similar circumstances. The fund balance also provides cash flow liquidity for general operations. Additionally, the Town has a policy that nonrecurring (e.g., one-time) resources or inflows are not used for operating purposes.

The annual budget serves as the foundation for the Town of Wickenburg's financial planning and control. The Town of Wickenburg's financial planning and control begins with its annual budget, which serves three purposes: for the Town Council it serves as a policy tool and as an expression of goals and objectives; Management uses the budget as an operating guide and a control mechanism; and for the citizens of Wickenburg, it presents a picture of the local government operations and intentions of the year.

Annually each department director is required to submit requests for appropriation to the Finance Director. The Finance Director then compiles and presents the total budget request, which is prepared by fund and department to the Town Manager. The Town Manager then uses these requests as the starting point for developing a draft budget to be presented to the Council for review. Once the Council has reviewed and adjusted the draft budget, it becomes the tentative budget. The Council is then required to hold public IV hearings on the tentative budget and to adopt the budget no later than the third Monday in July of each year.

To ensure compliance with legal provisions applicable to the annual appropriated budget the Town of Wickenburg maintains several budgetary controls. Department Directors are responsible for ensuring expenditures do not exceed their approved budget and mid-year budget adjustments are kept to a minimum. Additionally, all transfers from capital line items or between Funds must be approved by Council. The Council may appropriate contingency funds to cover emergencies or other unexpected necessary expenditures.

### ***Awards & Acknowledgements***

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Wickenburg for its ACFR for fiscal year ended June 30, 2022, making this the 12th consecutive year the Town has achieved this prestigious award. Because of budget cuts, the Town discontinued participating in this program effective fiscal year ending June 30, 2006, at which time 11 consecutive awards had been achieved, this latest award brings the total awards to date to 22. To be awarded this certificate of achievement, the Town must publish an easily readable and efficiently organized ACFR that satisfies both GAAP and applicable program requirements. This Certificate of Achievement is valid for a period of one year only. Achieving this certificate shows our commitment to encouraging transparency in government for the Town. We believe our current ACFR continues to conform to the programs requirements, and we are therefore submitting it to the GFOA to determine its eligibility for another certificate.

The Town has also resumed submitting its annual budget for the GFOA's Distinguished Budget Presentation Award and is happy to report the award was received for fiscal year beginning July 1, 2023. To qualify for the Distinguished Budget Presentation Award the government's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communication device.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the Finance Department; and I wish to thank each member for their assistance in providing the data necessary to prepare this report. Credit is also given to the Mayor, Town Council, and Town Manager for their continued support in maintaining the highest standards of professionalism in the management of the Town's finances.

Respectfully submitted,

*Stephanie Wojcik*

## INDEPENDENT AUDITORS' REPORT

Honorable Mayor and the Town Council  
Town of Wickenburg, Arizona  
Wickenburg, Arizona

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Wickenburg, Arizona (the "Town"), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Wickenburg, Arizona, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

The Town's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension schedules, and budgetary comparison information, as listed within the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2024, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

**TOWN OF WICKENBURG, ARIZONA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED JUNE 30, 2023**

---

As management of the Town of Wickenburg, Arizona (Town), we offer the readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2023.

**FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$133.7 million (net position). The Town's total net position increased by \$7.1 million.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$27.9 million, an increase of \$1.5 million in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$23.5 million, or 146% of total General Fund expenditures.
- The Town's net capital assets increased \$3.7 million in the current year.
- The Town's long-term liabilities decreased \$1.2 million or 8% during the current year. The decrease was the result of routinely scheduled principal payments on notes and loans payable as well as a payment made on the commitments payable. These payments were offset by an increase in the net pension liability.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner like private-sector business. The statement of net position presents information on all the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, highways and streets, and parks, recreation, and facilities. The business-type activities include water, electric, sanitation, wastewater, and airport. The government-wide financial statements can be found directly following the management's discussion and analysis.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

*Governmental Funds* – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Since the governmental fund financial statements focus on near-term spendable resources, while the governmental activities on the government-wide financial statements have a longer-term focus, a reconciliation of the differences between the two is provided with the fund financial statements.

The Town maintains six individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and Grants Fund which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregate presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found on pages 14 – 17 of this report.

*Proprietary Funds* – The Town maintains two different types of proprietary funds known as Enterprise and Internal Service Funds.

*Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements only in more detail. The Town uses Enterprise Funds to account for its water, electric, sanitation, wastewater, and airport operations, all of which are major funds.

*Internal Service Funds* are an accounting device used to accumulate and allocate costs internally among the Town's various functions. The Town uses Internal Service Funds to account for its maintenance shop and fuel facility funds. Though combined into a single aggregate presentation in the financial statements, individual fund data can be found elsewhere in this report. The Internal Service Funds have been included within *governmental activities* and *business-type activities* in the government-wide financial statements based on the operations they benefit.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, electric, sanitation, wastewater, and airport funds. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic Proprietary Fund financial statements can be found on pages 18 – 20 of this report.

**TOWN OF WICKENBURG, ARIZONA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED JUNE 30, 2023**

---

*Fiduciary Fund* – Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Town's own programs. The accounting used for Fiduciary Funds is much like that used for Proprietary Funds.

The basic Fiduciary Fund financial statements can be found on pages 21 – 22 of this report.

**Notes to Basic Financial Statements**

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 23 – 48 of this report.

**Required Supplementary Information Other than MD&A**

Governments are required to disclose certain information about employee pension and other postemployment benefit plans. The Town has disclosed this information on pages 49 – 53. Additionally, governments have an option of including the budgetary comparison statements for the General Fund and major Special Revenue Funds as either part of the fund financial statements within the basic financial statements or as required supplementary information after the footnotes. The Town has chosen to present these budgetary statements as required supplementary information on pages 54 – 55.

**Other information**

The combining statements in connection with nonmajor governmental funds are presented immediately following the required supplementary information other than the MD&A. Combining and individual fund statements and schedules can be found on pages 57 – 63 of this report.

The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The statistical section can be found on pages 64 – 87 of this report.

**Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as useful indicators of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$133.6 million at the close of the most recent fiscal year.

A summary of the Town's statement of net position is presented on the following page.

Net position consists of three components. The largest portion of the Town of Wickenburg, Arizona's net position (71%) reflects its investment in capital assets (e.g., land, buildings, infrastructure, furniture, equipment, etc.) less any related debt used to acquire those assets that is still outstanding. The Town of Wickenburg, Arizona uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The Town's net investment in capital assets increased \$4.8 million. The increase was largely due to the reduction of long-term debt (\$2.5 million), the purchase of new capital assets, offset by current year depreciation expense (\$4.2 million).

An additional portion of the Town's net position (2%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$35.8 million) or (27%) may be used to meet the government's ongoing obligations to citizens and creditors. Restricted net position decreased in the current year due to the use of restricted fund balances set aside for capital projects. The increase in unrestricted net position is largely due to normal Town operations and is discussed on the following pages in the discussion on changes in net position. At the end of the current fiscal year, the Town reported positive balances in all three categories of net position for the government as a whole.

The Town's net position increased by \$7.1 million during the current fiscal year. Key elements of this increase are presented in the following condensed statement of changes in net position on the following page.

**Governmental Activities**

The governmental activities' net position increased \$6.1 million in the current year. Key elements of that increase are noted below.

*Program Revenues*

The Town's program revenues consist of fees, fines, and charges for services, as well as operating and capital contributions. Fees, fines, and charges for services decreased \$0.5 million in the current year due to a decline in building permit activity. Additionally, the Town saw a decrease in operating and capital grants and contributions of \$1.9 million due to a decrease in state and federal funding from COVID-19 related grant activity.

*General Revenues*

The Town reports general revenues from local taxes, state shared revenues, investment earnings, and other income and transfers. Local taxes increased \$2.0 million or (21%) due to increases in economic activity at the Town resulting in larger sales tax collections. State shared revenues increased \$0.5 million due to increased distributions from the state as economic activity had also increased at the state level. Additionally, investment earnings increased by \$0.9 million as there has been an increase in cash balances held within the Local Government Investment Pool that had increased earnings with the increase in interest rates. The decrease in other income and transfers was due to the decrease in Town surplus sales that had occurred in the prior year.

Overall, expenses increased 25% \$3.0 million, mainly due to increases in salaries and related benefits. The Town also incurred an increase in operating expenditures related to inflation that caused costs to increase throughout Town operations.

***Business-Type Activities***

The Water System-1 Fund reported an operating income of \$0.2 million, which was comparable to the prior year. The Water System-2 Fund reported an operating loss of \$0.4 million. The net operating loss is largely due to depreciation expenses.

The Electric Fund reported an operating income of \$0.4 million. The net operating income is the result of electricity charges exceeding the costs to operate the utilities. The excess operating revenues have been dedicated to subsidizing capital projects of the Town. The Sanitation Fund had an operating income of \$8,574, which was comparable to the prior year.

The Wastewater System-1 Fund reported operating income of \$0.3 million in the current year, which was comparable to prior year's net income. The Wastewater System-2 Fund reported an operating loss of \$0.3 million.

The Airport Fund realized an operating loss of \$0.5 million, largely attributed to depreciation expenses.

The total non-operating revenues of the business-type activities offset the net operating loss of \$0.2 million which generated a positive change in net position of \$0.9 million. The non-operating revenues were primarily from investment earnings and grant funding with the Water System-1.

**FINANCIAL ANALYSIS OF THE TOWN'S FUNDS**

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the Town include the General Fund, Special Revenue Fund, Debt Service and Capital Projects Funds.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$27.9 million, an increase of \$1.5 million. Approximately 84% of this total amount (\$23.5 million) constitutes General Fund unassigned fund balance, which is available for new spending. The table below presents fund balances at June 30, 2023.

	<b>Balance</b>	<b>Increase (Decrease) From 2021-22</b>
<b>GOVERNMENTAL FUND</b>		
General Fund	\$ 25,556,862	\$ 1,912,586
Grants Fund	24,592	(41,578)
Nonmajor Governmental Funds	2,325,702	(396,314)
<b>Total Governmental Funds</b>	<b>\$ 27,907,156</b>	<b>\$ 1,474,694</b>

The General Fund is the chief operating fund of the Town of Wickenburg, Arizona. At the end of the current fiscal year, the fund balance of the General Fund was \$25.6 million, while total fund balance of the Town reached \$27.9 million. As a measure of the General Fund's liquidity, it may be useful to compare both General Fund balance and total fund balance to total fund expenditures. General fund balance represents 146% of total General Fund expenditures.

**TOWN OF WICKENBURG, ARIZONA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED JUNE 30, 2023**

---

The fund balance of the Town's General Fund increased by \$1.9 million because of continued conservative spending practices. Revenues remained consistent at \$18.6 million and expenditures increased \$5.0 million as the Town was able to pay for expenditures from COVID-19 funding in the prior year from the Coronavirus Aid, Relief, and Economic Security Act.

The Grants Fund was reported as a major fund in the current year. The fund reported a decrease in fund balance of \$41,578. This decrease was mainly due to spending down federal and state revenues that were carried forward from prior years. The Town has carried forward unearned revenues of \$2.7 million in COVID-19 funding that will be spent in futures years.

The enterprise funds are reported on the same basis as the business-type activities and the significant changes from the prior year are discussed in the business-type activities on the previous page.

**BUDGETARY HIGHLIGHTS**

Budgeted General Fund revenues of \$14.2 million were less than actual revenues of \$18.6 million, while budgeted expenditures of \$22.8 million exceeded the budgetary basis (actual) expenditures by \$16.1 million. Actual expenditures were less than budget, largely due to the budgeted contingencies/reserves reported in the general services department.

The most significant variance from budget was sales tax revenues exceeding the budget due to increased activity as a result of Wickenburg Ranch and an improving economy. The General Services expenditures fell below budget due to an unspent contingency.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

The Town's capital assets for its governmental activities and business-type activities as of June 30, 2023, amounted to \$39.4 million and \$63.4 million, respectively (net of accumulated depreciation), a total net increase of \$3.7 million. Additions to capital assets during the fiscal year totaled \$5.4 million for governmental activities assets and \$2.5 million for business-type activities assets. Depreciation expense for governmental activities and business-type activities were \$1.4 million and \$2.8 million, respectively.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Governmental fund financial statements record capital asset purchases as expenditures.

Major capital asset events during the current fiscal year included the following projects:

- Park improvements.
- Police communication equipment.
- Fire equipment.
- Town and utility vehicles.
- Utility upgrades and improvements.

Additional information on the Town's capital assets can be found in Note 6 of this report.

Capital asset activity as of June 30, 2023, is summarized on the following page.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

- Nearly \$13 million in capital improvements to improve and expand services while also focusing on community objectives.
- An increase in salary and benefits to retain staff.
- A continued effort to improve public safety.
- Continued growth in the Wickenburg Ranch development and other smaller new developments and several new businesses.

The above factors were considered in preparing the Town's budget for the 2023-2024 fiscal year.

**FUNDS TO THE STATEMENT OF NET POSITION**  
**JUNE 30, 2023**

---

**Total Fund Balance - Governmental Funds** \$ 27,907,156

Amounts reported for assets and liabilities for governmental activities in the statement of net position are different from amounts reported in governmental funds because:

Capital assets:

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation. Excluding the internal service funds.

Capital assets	\$ 64,138,853	
Accumulated depreciation	<u>(24,827,249)</u>	39,311,604

Net OPEB asset:

In governmental funds, postretirement benefits costs are recognized as expenditures in the period they are paid. In the government-wide statements, they are recognized in the period they are incurred. The net OPEB asset at the end of the period was:

70,101

Long-term liabilities:

In governmental funds, excluding the internal service funds, only current liabilities are reported in the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Net pension liability	(4,044,570)	
Financed purchase payable	(1,900,339)	
Compensated absences	<u>(203,072)</u>	(6,147,981)

Deferred outflows and inflows of resources relating to pensions:

In governmental funds, excluding the internal service funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported:

Deferred outflows of resources relating to pensions:	2,833,088	
Deferred inflows of resources relating to pensions:	<u>(460,687)</u>	2,372,401

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

Internal service fund net position		282,676
Less: amount attributed to the business-type activities		<u>(64,202)</u>

**Net Change in Fund Balances - Governmental Funds** \$ 1,474,694

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. (excluding internal service funds)

Expenditures for capital outlay:	\$ 5,386,039	
Depreciation expense:	<u>(1,374,236)</u>	4,011,803

Governmental funds report pension contributions as expenditures when made. However, in the statement of activities, pension expense is the cost of benefits earned, adjusted for member contributions, the recognition of changes in deferred outflows and inflows of resources related to pensions. (excluding internal service funds)

Pension contributions	1,052,008
Pension expense	(1,010,819)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The issuance of long-term debt increases long-term liabilities on the statement of net position and the repayment of principal on long-term debt reduces long-term debt on the statement of net position.

Principal payment on loans payable	449,661
------------------------------------	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. (excluding internal service funds)

Decrease in compensated absences	108,126
----------------------------------	---------

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenues of the internal service funds are reported with governmental activities and business-type activities.

Net Revenues (Losses) of the Internal Service Fund	<u>3,969</u>

**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying financial statements of the Town of Wickenburg, Arizona (Town) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

**Reporting Entity**

The Town is a municipal government that is governed by a separately elected governing body. It is legally separate from and fiscally independent of other state and local governments. In evaluating how to define the Town, for financial reporting purposes, management has identified no potential component units. The decision to include a potential component unit in the reporting entity would have been made by applying criteria set forth in accounting principles generally accepted in the United States of America. Generally, component units are legally separate organizations for which the elected officials of the primary government (i.e., the Town) are financially accountable. The primary government is financially accountable for a potential component unit if it: appoints a voting majority of the potential component unit's governing body; and, either is able to impose its will on the potential component unit or there is a possibility of the potential component unit to provide specific financial benefits to, or impose specific financial burdens on the primary government. In addition, a primary government may be financially accountable for a potential component unit even though the potential component unit may have a separately elected governing board, a board appointed by another government, or a jointly appointed board if the potential component unit is fiscally dependent on the primary government (e.g., the primary government must approve the potential component unit's budget, tax rates, etc.). Because no potential component units were identified in defining the Town's reporting entity, none have been included in the Town's reporting entity. Consequently, the Town's financial statements present only the funds of those organizational entities for which its elected governing board is financially accountable.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government. The effect of interfund activity has been removed from these statements, except for interfund services provided and used are not eliminated in the process of consolidation. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. Property taxes, intergovernmental grants and aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The *Grants Fund* – A special revenue fund used to account for the activities of various state and federal grants and contributions received by the Town.

The Town reports the following major proprietary funds:

The *Water System-1 Fund* accounts for the activities necessary to provide water services to the citizens of the Town.

The *Water System-2 Fund* accounts for the activities necessary to provide water services to the citizens of the town living in Wickenburg Ranch.

The *Electric Fund* accounts for the activities necessary to provide electricity to the citizens of the Town.

The *Sanitation Fund* accounts for the activities necessary to provide trash collections for the citizens of the Town.

The *Wastewater System-1 Fund* accounts for the activities necessary to provide wastewater services to the citizens of the Town.

The *Wastewater System-2 Fund* accounts for the activities necessary to provide wastewater services to the citizens of the town living in Wickenburg Ranch.

The *Airport Fund* accounts for the transactions related to operating the municipal airport.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)**

Additionally, the government reports the following fund types:

The *Internal Service Funds* account for the direct and overhead costs of vehicle maintenance on Town vehicles and the operation of the Town's Fuel Facility. The funds are operated on a cost reimbursement basis.

The *Custodial Fund* is used to report fiduciary activities that are not required to be reported in pension or OPEB trust funds, investment trust funds, or private purpose trust funds. The Fund accounts for funds held by the Town on behalf of Southwest Gas which controls the use of the funds for various capital expenses incurred by Southwest Gas to provide services to the Town. Any related capital is not the property of the Town.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service fund are charges to other funds for direct and overhead costs of vehicle maintenance on Town vehicles and operations of the fuel facility. Operating expenses for the internal service fund include the cost of fuel and maintenance of Town vehicles. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, for governmental activities it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed. For business-type activities, the use of restricted resources is governed by the applicable loan covenants.

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity**

**Deposits and Investments**

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the State Treasurer, and highly liquid investments with maturities of three months or less from the date of acquisition.

Cash and investments are pooled except for funds required to be held by fiscal agents or restricted under provisions of bond indentures. Interest earned from investments purchased with such pooled monies are allocated to each of the funds based on the average daily cash balances. State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the State of Arizona or any of its counties or incorporated cities, towns or duly organized school districts, improvement districts in this state and the State Treasurer's Local Government Investment Pool. Investments are stated at fair value.

**Accounts and Property Tax Receivables**

All trade and property taxes receivable are shown net of an allowance for uncollectible accounts.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)**

Maricopa County and Yavapai County levy real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. However, a lien against real and personal property attaches on the first day of January preceding assessment and levy thereof.

**Intergovernmental Receivables**

Intergovernmental receivables include amounts due from other government agencies and include Town sales tax (\$1,591,220), Highway User Revenue fuel tax (\$59,416), State sales tax (\$44,721), auto lieu (\$18,134), fire district billings (\$549,475), and other (\$43,423) in the governmental funds and governmental activities column of the government-wide financial statements.

**Inventories and Prepaids**

Inventories are recorded as expenditures at the time of purchase in the governmental funds and are recorded as an asset and expensed when consumed in the government-wide and proprietary fund financial statements. In the governmental funds, enterprise funds, and government-wide financial statements, prepaids are recorded as an asset and expensed in the period goods or services are received.

**Capital Assets**

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental and business-type activities column in the government-wide financial statements and in the proprietary funds financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Infrastructure assets acquired prior to 1980 are not reported in the governmental activities column in the government-wide financial statements.

Property, plant, and equipment purchased or acquired is carried at historical cost or estimated historical cost. Contributed assets are recorded at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

Land improvements	10-40 years
Buildings and improvements	10-40 years
Utility components	5-40 years
Infrastructure	5-40 years
Furniture, equipment, and vehicles	3-20 years

**Deferred Outflows of Resources**

The deferred outflows of resources represent the consumption of net position that is applicable to a future reporting period. Reported amounts are related to the requirements of accounting and financial reporting for pensions.

---

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)**

**Compensated Absences**

The liability for compensated absences reported in the government-wide and proprietary fund financial statements consists of unpaid, accumulated leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

**Long-Term Obligations**

In the government-wide financial statements, and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund statements of net position.

**Pension Plans**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arizona State Retirement System (ASRS) and Public Safety Personnel Retirement System (PSPRS) and additions to/deductions from ASRS/PSPRS's fiduciary net position have been determined on The same basis as they are reported by ASRS/PSPRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Deferred Inflows of Resources**

Deferred inflows of resources represent the acquisition of net position that is applicable to a future reporting period. Reported amounts are related to the requirements of accounting and financial reporting for pensions and leases.

**Net Position**

In the government-wide financial statements, net position is reported in three categories: net investment in capital assets; restricted net position; and unrestricted net position. Net investment in capital assets is separately reported because capital assets make up a significant portion of total net position. Restricted net position accounts for the portion of net position restricted by parties outside the Town. Unrestricted net position is the remaining net position not included in the previous two categories.

None of the restricted net position is restricted by enabling legislation.

**Fund Balances**

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, committed, assigned, and unassigned fund balance.

**JUNE 30, 2023**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)**

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations. The committed fund balances are self-imposed limitations approved by the Town's Council, which is the highest level of decision-making authority within the Town. Only the Town Council can remove or change the constraints placed on committed fund balances. The Town Council must commit fund balances before the end of the fiscal year through formal council action. Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes but are neither restricted nor committed. The Town Council has authorized, through the adoption of a fund balance policy, the Town Manager to make assignments of resources for a specific purpose. The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balance of the other governmental funds are reported as unassigned. When an expenditure is incurred, it is the Town's policy to use restricted fund balance first, then committed, assigned, and unassigned fund balances as resources are available.

The various components of fund balance are as follows:

**Leases**

The Town determines if an arrangement is a lease at inception. Leases are included in lease receivables and deferred inflows of resources in the statements of net position and fund financial statements. Lease receivables represent the Town's claim to receive lease payments over the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease receivables are recognized at commencement date based on the present value of expected lease payments over the lease term, reduced by any provision for estimated uncollectible amounts. Interest revenue is recognized ratably over the contract term.

Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term.

**NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**Budgetary Information**

The Town Council follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Arizona Revised Statutes, the Town Manager submits a proposed budget for the fiscal year commencing the following July 1 to the Town Council. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
2. Public hearings are conducted to obtain taxpayer comment.
3. Prior to the third Monday in August, the expenditure limitation for the Town is legally enacted through passage of an ordinance. To ensure compliance with the expenditure limitation, a uniform expenditure report must be filed with the State each year. This report, issued under a separate cover, reconciles total Town expenditures from the audited basic financial statements to total expenditures for reporting in accordance with the State's uniform expenditure reporting system (A.R.S. §41-1279.07).
4. Expenditures may not legally exceed the expenditure budget by department for the General Fund or the total fund budget for other funds without council approval. The Town legally adopts a budget by department for the General Fund and in total by fund for other funds. Transfers between departments within the General Fund may be authorized by the Department Director, transfers of any unencumbered appropriation balance between Funds must be approved by the Town Council. The adopted budget cannot be amended in any way without Town Council approval.
5. Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, and Capital Projects Funds on essentially the same modified accrual basis of accounting used to record actual revenues and expenditures.

**Budgetary Information (Continued)**

The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complies with this law. No supplementary budgetary appropriations were necessary during the year.

**NOTE 3 – DEPOSITS AND INVESTMENTS**

Deposits and investments at June 30, 2023 consist of the following:

Deposits:	
Cash on hand	\$ 990

**Deposits**

The Town's deposits at June 30, 2023 had a carrying value of \$3,692,796 and a bank balance of \$3,733,305. Of the bank balance, \$250,000 was covered by federal depository insurance and the remaining balance was covered through the State of Arizona's pooled collateral program. Therefore, the Town's deposits were not exposed to any custodial credit risk.

**Investments**

The Town holds its investments in the Arizona State Treasurer's Local Government Investment Pool (LGIP). Investments in the State Treasurer's investment pools are valued at the pool's share price multiplied by the number of shares the Town held. The fair value of a participant's position in the pool approximates the value of the participant's pool shares. The State Board of Deposit provides oversight for the State Treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. Investments in the State Treasurer's investment pools are reported at fair value. Fair value is the amount reasonably expected to be received for an investment in a current sale between a willing buyer and a willing seller. Investments are valued based on published market prices and securities pricing services.

*Interest Rate Risk* – In accordance with its investment policy, the Town manages its exposure to declines in fair value by limiting the average maturity of its investments to six months or less. All of the Town's investments held in LGIP have maturities of one year or less.

**NOTE 7 – LONG-TERM OBLIGATIONS**

**Loans**

The Town has loans payable issued to provide funds for the acquisition and construction of major capital facilities. On March 22, 2022, the Town entered into a loan agreement with Zion Bank in the amount of \$2,350,000 for the acquisition and/or construction of Wickenburg Ranch Fire Station. The loan carries a 2.20% interest rate and will mature on March 22, 2027. The loan is secured by general revenues (sales tax, licenses and fees and other miscellaneous revenues of the General Fund). In the event of default, the creditor has the right to: a. take possession of the financed property; b. hold the Town liable for the difference between the rent to the end of the original term or renewal term and the rent pay by the Town pursuant to a new agreement, c. take action at law to enforce its rights under the agreement or d. terminate the escrow agreement and apply the proceeds in the escrow account.

**NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)**

**Commitments Payable**

Effective July 1, 2018, the Town of Wickenburg assumed the operations and assets of the Wickenburg Ranch water and wastewater utilities (water system 2 and wastewater system 2) from the Wickenburg Ranch Water LLC and Wickenburg Ranch Wastewater LLC, respectively through a transfer agreement that was signed June 28, 2019 ("transfer agreement").

The Wickenburg Ranch Water utilities were recorded as a capital contribution to the Town. The Town does not have any commitments to the Wickenburg Ranch Water LLC as a result of the transfer agreement; however, the transfer agreement acknowledges that initial operating revenues of the Wickenburg Ranch Water operations will not be sufficient to pay for the related operating expenses. Therefore, the transfer agreement requires a subsidy to be paid to the Town of Wickenburg by Wickenburg Ranch Water LLC in an amount equal to the net operating income (excluding depreciation) of the Wickenburg Ranch Water operations, plus the net cumulative capital reserve deficit (as defined in the transfer agreement), plus the contingency fund deficit. The subsidy will continue until annual operating revenues meet annual operating expenses and generate funds for the capital reserve at a level of twenty-four percent of the annual operating revenues for a period of five consecutive years. Total subsidies received by the Town for the Wickenburg Ranch Water operations for the fiscal year ended June 30, 2023, was \$64,880, which are included in other nonoperating revenue.

The Wickenburg Ranch Wastewater utility assets were acquired from the Wickenburg Ranch Wastewater LLC through a long-term commitment in the amount of \$12,007,348. The commitment is executed directly by and between the Town of Wickenburg, Arizona and Wickenburg Ranch Wastewater LLC. Except for the provisions set forth in the asset transfer agreement between the Town of Wickenburg and the Wickenburg Ranch Wastewater LLC for an automatic extension of the terms of the commitment, the agreement will terminate on the 30th anniversary of the first day of the term of the agreement. In connection with the Town's agreement to assume the assets and operations of the Wickenburg Ranch Wastewater utilities, the commitment repayment will be subordinate to funding the Wickenburg Ranch Wastewater operations, including reserves and contingencies. As set forth in the transfer agreement, the commitment will be repaid from connection fees and the operating income of the wastewater utilities in excess of capital and operating reserves set forth within the agreement. The Town does not anticipate the use of non-Wickenburg Ranch related resources to fund the commitment.

In the event of default, as defined in the asset transfer agreement, a notice of hearing will be provided and the dispute will be heard by a mediator who will provide a default resolution. The Town made a payment of \$1,874,604 towards the commitment during the fiscal year. The commitment balance on June 30, 2023 was \$5,303,101.

Changes in the business-type activities long-term liabilities for the year ended June 30, 2023 are as follows:

**NOTE 8 – RISK MANAGEMENT**

The Town of Wickenburg, Arizona is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town's insurance protection is provided by the Arizona Municipal Risk Retention Pool, of which the Town is a participating member. The limit for basic coverage is for \$2,000,000 per occurrence on a claims made basis. Excess coverage is for an additional \$10,000,000 per occurrence on a follow form, claims made basis. No significant reduction in insurance coverage occurred during the year and no settlements exceeded insurance coverage during any of the past three fiscal years. The Town has a deductible for claims of \$25,000 per claim.

The Arizona Municipal Risk Retention Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the pool to meet its expected financial obligations. The pool has the authority to assess its member's additional premiums should reserves and annual premiums be insufficient to meet the pool's obligations.

The Town is also insured by Arizona Municipal Workers Compensation Fund for potential worker related accidents.

**NOTE 9 – CONTINGENT LIABILITIES**

*Compliance* – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds.

*Arbitrage* – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

*Federal grants* – In the normal course of operations, the Town receives grant funds from various federal agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of audits of grant funds is not believed by Town officials to be material.

*Litigation* – The Town is a defendant in various lawsuits. In the opinion of the Town's attorney no determination of liability can be made or any loss will be covered by insurance.

Contributions	495,358	682,264

The Town reported accrued payroll and employee benefits of \$-0- for outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2023. The OPEB plans related to the cost-sharing multiple employer plan were not posted as the activity was not significant to the Town's financial statements.

**Arizona State Retirement System**

**Plan Description**

Town employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit (OPEB); and a cost-sharing, multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2, and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at [www.azasrs.gov](http://www.azasrs.gov).

**Benefits Provided**

The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions**

In accordance with State statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2023, statute required active ASRS members to contribute at the actuarially determined rate of 12.17% (12.03% for retirement and 0.14% for long-term disability) of the members' annual covered payroll, and statute required the Town to contribute at the actuarially determined rate of 12.17% (11.92% for retirement, 0.11% for health insurance premium benefit, and 0.14% for long term disability) of the active members' annual covered payroll. In addition, the Town was required by statute to contribute at the actuarially determined rate of 9.68% (9.62% for retirement and 0.06% for long-term disability) of annual covered payroll of retired members who worked for the Town in positions that an employee who contributes to the ASRS would typically fill. The Town's contributions to the pension plan for the year ended June 30, 2023 was \$485,895.

During fiscal year 2023, the Town paid for pension contributions as follows: 75% from the General Fund, 24% from business-type activities, and 1% from nonmajor funds.

**Liability**

On June 30, 2023, the Town reported a net pension liability of \$4,677,949. The Town's proportionate share of the net pension liability increased 0.0003% from 0.0283% to 0.0287%.

The net assets and net liabilities were measured as of June 30, 2023. The total liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2021, to the measurement date of June 30, 2023. The Town's proportion of the net asset or net liability was based on the Town's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2023, and the change from its proportions measured as of June 30, 2021, were noted above.

**Expense**

For the year ended June 30, 2023, the Town recognized pension expense of \$696,285.

**Deferred Outflows/Inflows of Resources**

On June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 39,859	\$ -
Changes of assumptions or other inputs	232,176	-
Net difference between projected and actual earnings on pension plan investments	-	123,222

Permanent base increases	Included
Mortality rates	2017 SRA Scale U-MP

Actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.0% using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Geometric
		Real Rate of Return
Equity	50%	3.90%
Fixed income - credit	20%	5.30%
Fixed income - interest rate sensitive	10%	-0.20%
Real Estate	20%	6.00%
Total	100%	

**Discount Rate**

On June 30, 2023, the discount rate used to measure the ASRS total pension/OPEB liability was 7.0 percent, which was a decrease of 0.5 from the discount rate used as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statutes. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. The long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Plan Descriptions**

Town police employees and Town firefighters who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans. A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plans (PSPRS Tier 3 Risk Pool) which are not further disclosed because of their relative insignificance to the Town’s financial statements.

Town dispatchers participate in the Corrections Officer Retirement Plan (CORP) or the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The CORP administers an agent multiple-employer defined benefit pension plan for Town dispatchers (agent plan) which were closed to new members as of July 1, 2018. Employees who were CORP members before July 1, 2018, participate in CORP. Town dispatchers who became members on or after July 1, 2018, participate in PSPDCRP. The PSPRS Board of Trustees and the participating local boards govern CORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

The Town has members participating in the Public Safety Personnel Defined Contribution Retirement Plan and the activity was insignificant to the financial statements.

The PSPRS and CORP issue publicly available financial reports that include their financial statements and required supplementary information. The reports are available on the PSPRS Web site at [www.psprs.com](http://www.psprs.com).

**Contributions**

State statutes establish the pension contribution requirements for active PSPRS and CORP employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS and CORP pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2023, are indicated below. Rates are a percentage of active members' annual covered payroll.

	PSPRS Police	PSPRS Fire	CORP Dispatchers
Active members	7.65%-10.85%	7.65%-10.85%	0.00%

PSPRS Tier 3	12.54%-13.45%	9.94%-10.85%	0.00%

During the year ended June 30, 2023, the Town paid for PSPRS and CORP pension 100% from the General Fund.

**Liability**

As of June 30, 2023, the Town reported a pension liability(asset) for PSPRS Police, PSPRS Firefighters, and CORP Dispatchers of \$374,974, \$282,923, and (\$70,101) respectively.

**Actuarial Assumptions and Other Inputs**

**Public Safety Personnel Retirement System (PSPRS) and Corrections Officer Retirement Plan (CORP)**  
**(Continued)**

**Actuarial Assumptions and Other Inputs (Continued)**

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2017. The long-term expected rate of return on PSPRS and CORP plan investments was determined to be 7.20% using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Public equity	24%	3.49%
International Public Equity	16%	4.47%
Global Private Equity	20%	7.18%
Other Assets (Capital Appreciation)	7%	4.83%
Core Bonds	2%	0.45%
Private Credit	20%	5.10%
Diversifying Strategies	10%	2.68%
Cash - Mellon	1%	-0.35%
Total	100%	

**Discount Rate**

At June 30, 2022, the discount rate used to measure the PSPRS and CORP total pension liabilities was 7.20%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liabilities.
